

## How Do I Attend a Virtual Concert?

- You will be sent a private link to view our concert on the release date of the concert.
- Use the link to watch and listen to the concert as many times as you want until the concert end date.
- You will be able to view the concert video on your computer, tablet or Smart TV. For the best results, we recommend that you view the video on a large screen device.
- The concert video will be broadcast using the Vimeo platform. You do not need a Vimeo account to watch the video.

### Watching on a Computer or Tablet

- Click on the link from the email that was sent to you and the video will open in your browser.
- Click on the Full Screen mode icon and then on the PLAY button and enjoy the concert.

### Watching on a Smart TV

- Watch on your Smart TV from a browser or from the Vimeo app.
  - **Browser:** bring up your Smart TV's browser and type the link from the email into the URL address bar; the video will open in the browser. Click on the PLAY button to watch the concert.
  - **Vimeo App:** You will need a Vimeo account to use the app. If you do not have a Vimeo account and wish to use the app, Vimeo offers a free basic membership. (Again, you do not need a Vimeo account or the app to watch the video.)
    1. You will first need to locate the email with the private link and open the video. Log into your Vimeo account and then add to the "Watch later" icon. Then you can move to your TV.
    2. Add the Vimeo app to your TV
    3. Open the app and go to settings.
    4. Select Log In and enter your credentials (username and password)
    5. If you have never used the app before, you will need to activate it. (This should be done ahead of time to ensure that the app will be ready for the concert.) Follow the simple directions as they appear on your TV screen.
    6. Open the Vimeo app and go to your library. The Camerata concert you added to "Watch Later" will be there. Click the full screen mode icon and enjoy.
